Tuesday

Dearest Mother & daddy,

S orry I forgot to give the check to Daddy - also some other things; Hope he arrived home o k and for his 2 days of traveling is none the worse.

Went to bed last nite about 10 - after Jack came home we drove down town and around rainbow pier and home - nite was so lovely and the ocean was calmer than a lake - if you can imagine that ! just tiny waves and few of them and they really didn't roll at all. Never saw such calm ocean water. Felt sleepy yesterday but today fine. This a.m. at the house was nice sunshine and when we got to 10th st. ran into the fog (high) but it gradually drifted away and it is all sunshine now.

Did you nitice in the L.B. Paper that Tauberman had made his farewell sermon Sunday?

Am in a hurry to go to Bank and to get stamps at the post office so consequently can't think of anything to write. JAD dropped me off on his way home last nite, which was a big help.

Landlady 'phoned me at 5: last nite and said she would put up curtains today if o.k. with me - and I suggested the refrigerator man also go while she was there - he wanted to check up on it and I have never let him know when w e were going to be home.

Wonder what she is "stringing" up. Last nite I put paper in the holes in the floor in breakfast room and left ehough stick out and sat the chair to one side - so she could (if she will) see the paper (if she can't the holes). We want to talk the the owner - she this woman is his "secretary" - but maybe she "runs" him too. Know she drives a Lincoln Zepher.

Well bye bye for this time - hope children didn't begin to get you down before they went home. Thanks again for transportation and everything Sorry W E for got the posies.

Love

Alice

maybe you can make out what the mis-spelled words are supposed to be
